COLORJET

STERILIZATION WALKTHROUGHS-

TO SAVE YOU, AND TO SAVE OTHERS

Ensure Adherence to Safety Norms In This Covid-19 Scenario

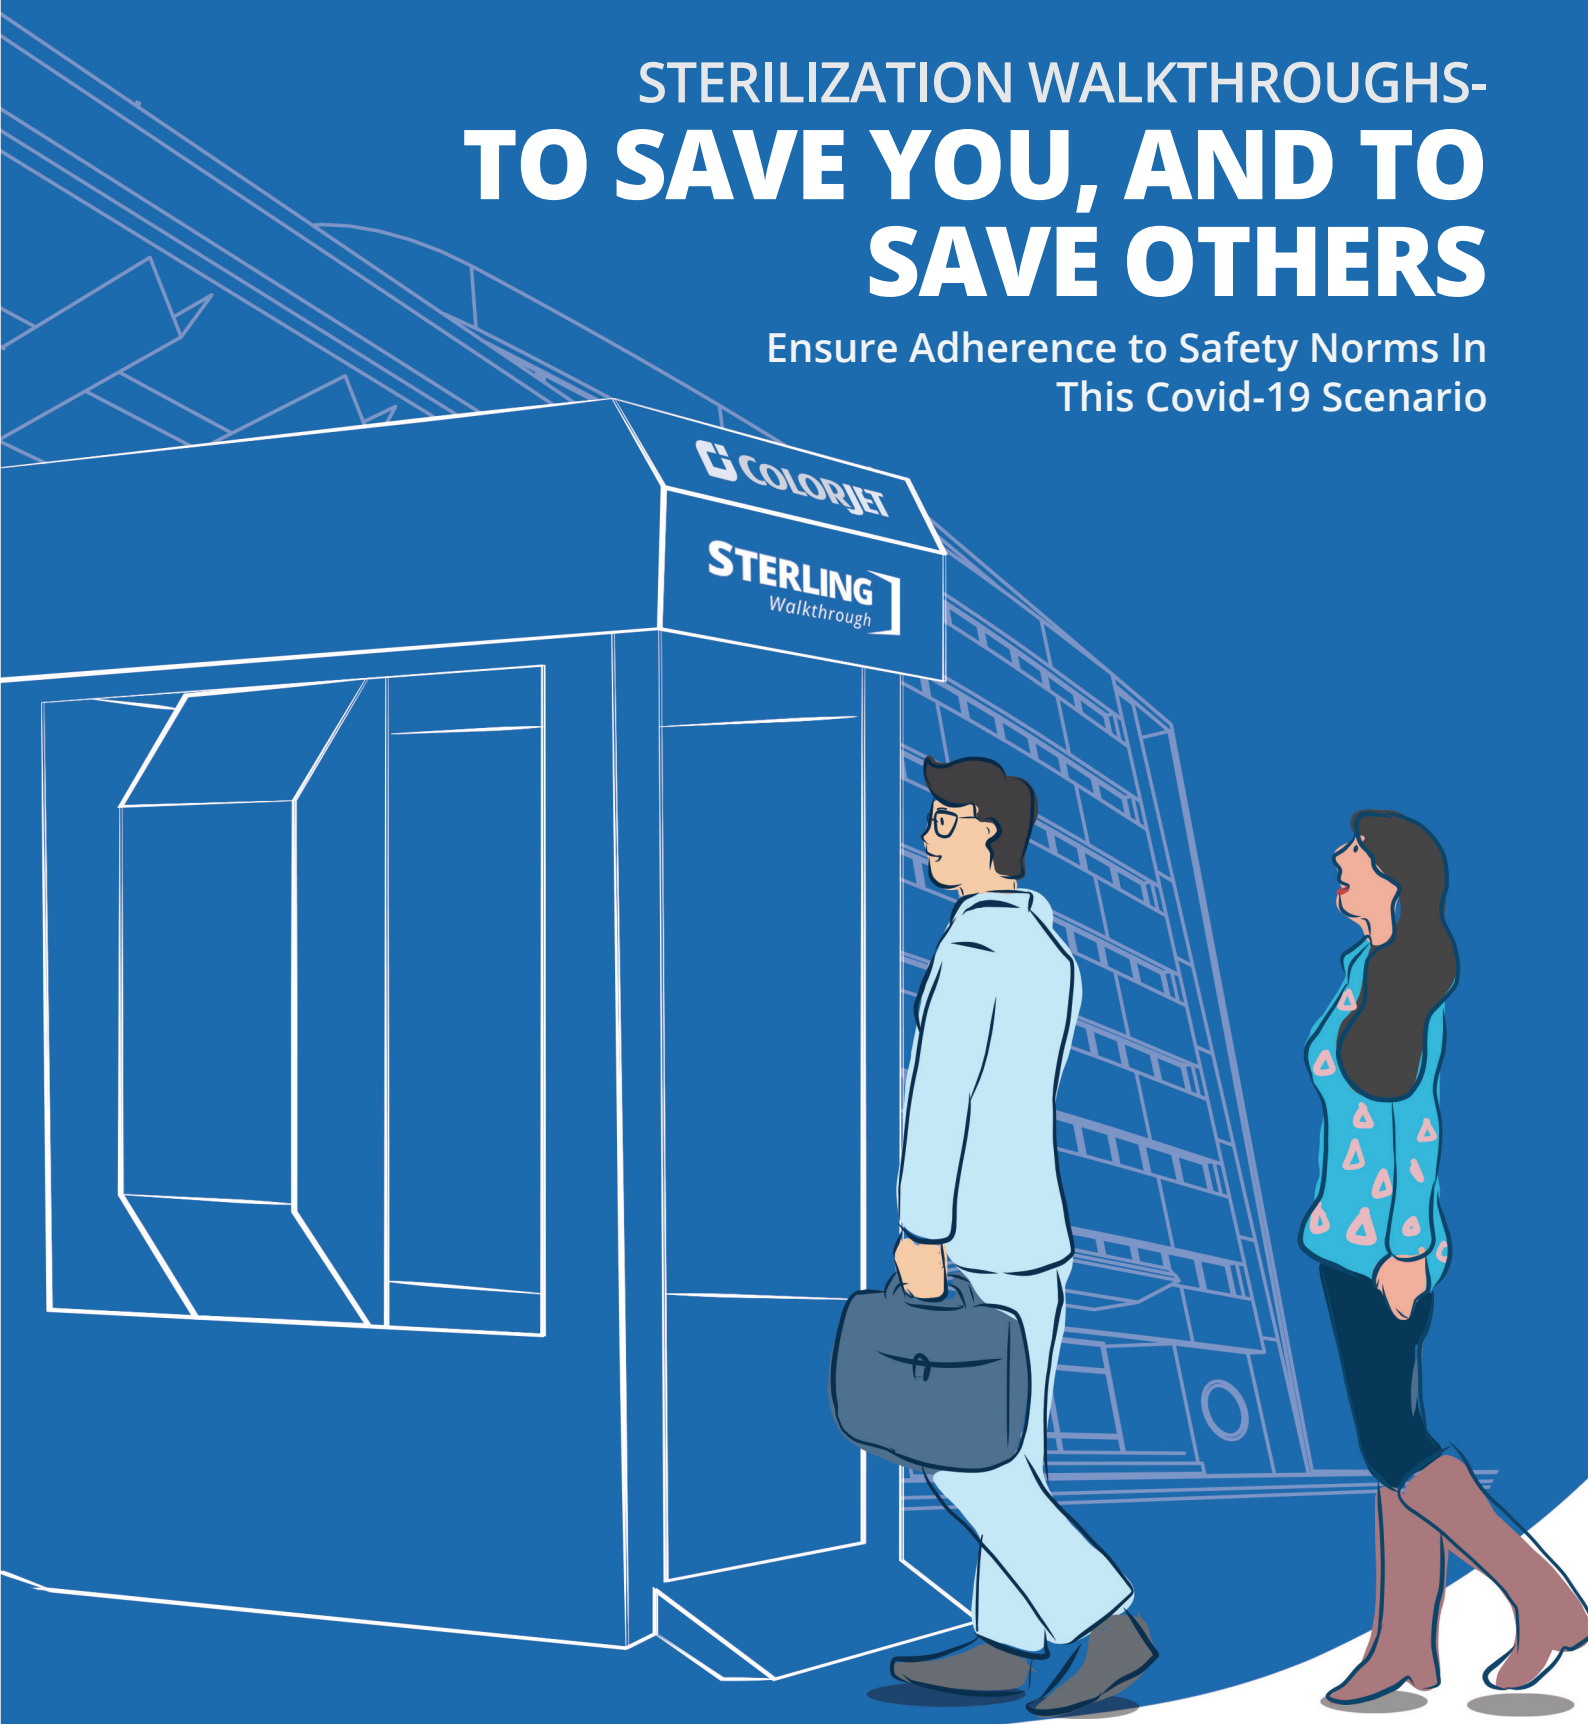

PHOTO HYDRO IONIZATION

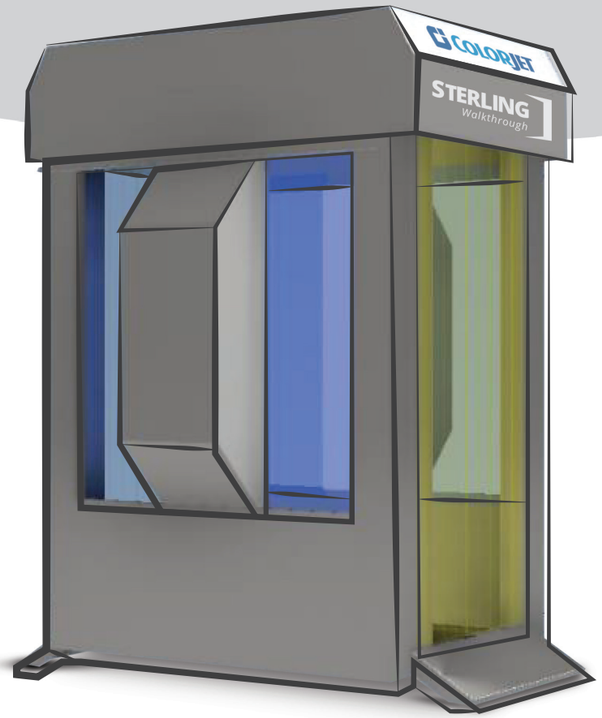

PROTECTION IS OUR PRIORITY

ColorJet presenting Sterling Cyber & HealthWay Econo range of Sterilization Walkthroughs:

Colorjet's, Sterilization Walkthroughs, are modular range of disinfecting pass ways for human use, which spray herbal & natural high-grade disinfectant sanitizer onto the passers. The process is effective in killing 99.99% of viruses, bacteria, molds, spores and fungi.

The process is neither harmful to humans nor to the environment. It is completely safe and is especially useful in pandemic situations like Covid 19.

aico

With AICO add-ins upgrade packs basic models can be converted into high-end model with the utmost level of features and offerings, like-

- **Size Extension for quicker & goods Sterilization**

And many more technical enhancements to meet to the organizational govt. norms.

NANO SILVER DROPLET TECHNOLOGY

A RANGE OF STERILIZATION WALKTHROUGHS

- Designed to meet your esteemed organization look & feel
- Compact packing & Easy to assemble
- Face Recognition / IRIS / NFC / RFID Touchless Attendance
- With Mask Face Recognition, No mask warning & access control
- Hypothermia/Fever Warning, Recording, Access Control & Application interface to central database as per govt. mandatory
- Modular AICO Add-in design to scale up & down whenever required
- Smaller Sterilizing Drops - low cost high efficiency
- Herbal & Natural Formula Disinfectant
- Silver Nano droplet – Sterilization Assured
- Food-grade Disinfectant
- Phi Assurance - Accelerated
- Phi Air filtration
- Phi Shoe disinfection
- Phi ++ Breathable Air & Cloth Sterilization
- Wireless CCTV, Image to existing DVR
- 20 people – 200 people modular upgrades
- Wheelchair & Goods Trolley Friendly – wide & ramps on in & out
- Inclined Flooring
- Inclined & Insulated Rooftop option for heat repulsion
- Thick curtains
- Mask & Spectacle Friendly
- Audio Visual Alarming
- Foot Dust Removal Brushes
- Bigger see through - Delighting feeling & external supervision
- Modular Design to scale up & down whenever required
- Ultrasonic / ULV / Air Supply / HP Pumping
- Microwave, PIR, Optical, Ultrasonic Distance Sensing
- Solar & Grid Options
- Solar Energy: No additional load Sanctioning
- Battery Backup Option
- Barrel Drum IBC Pump Trolley option
- Peltier Cooling Optional
- Extra Thick Sanitizer Dispenser-Hand Sterilization

COLORJET'S STERILIZING WAY

Sterilization is required not just for hand but to every other part, clothes, backpacks, mobiles etc. So entrance is the place where you get sterilized fully and keep your territory infection free

Viruses are nano-sized and have protective protein layer against reactivity to counter this phenomenon we are using Nano-Silver Droplet technology

Herbal & Natural Disinfectants are available that are best at breaking down the virus and super safe to human inhalation

A finest dry shower of Nature based Disinfectants like Neem, Eucalyptus, Aloe Vera & Vitamin E are proved to be quite effective against the virus and also safeguards the human wellbeing. We recommend FDA approved disinfectant only
