OEKO-TEX STANDARD CERTIFICATION

Direct Disperse/ Dye Sublimation Inks

Premium DKM PS 250

RE: Certificate of Conformity/ OEKO-TEX Standard

Given our current state of knowledge and Technology, we confirm hereby that the use of our Premium DKM PS 250 Digital ink series for Direct Printing for Polyester on Soft Signage

Code	Designation
PS 250K	PREMIUM DKM BLACK PS250
PS 250C	PREMIUM DKM CYAN PS250
PS 250M	PREMIUM DKM MAGENTA PS250
PS 250Y	PREMIUM DKM YELLOW PS250
PS 250CS	PREMIUM DKM CLEANING SOLUTION PS250

fulfils the condition for granting authorization to mark Textiles with the Oeko-Tex standard100 Label for Product class II (Textiles which, when used as intended, have a large part of their surface in direct contact with the skin), Class III (Textiles which, when used as intended, have no or only a little part of their surface in direct contact with the skin) and Class IV (Furnishing materials for decorative purposes such as table linen and curtains, but also textile wall and floor coverings etc.)

Taking into account that specific fastness properties depend heavily on substrates and auxiliaries as well as application methods used, we may remind you that testing of end product is required for OEKO-TEX Certification.

Regards,
Colorjet
